

Dear Fellow AWA Members,

I hope this email finds all of you, and your families, in good health. It seems so strange not to have our meetings and share our love of woodworking. As you can see, our April meeting is cancelled and we will have to play our future meetings by ear. It will depend, largely, if Bernalillo County feels it is safe to open up our meeting place.

We are putting together a newsletter for you. I would really like to see any photos of you working in your shops either on the Toy Project or your latest personal project. Mike Murray is on top of the Toy Project and it is moving along toward our fall goal of being ready with toys. Please send your photos to Jerry at: [qvslamb@comcast.net](mailto:qvslamb@comcast.net)

As woodworkers, I feel we are so lucky to be able to go out and make sawdust during these ever-changing times. Somehow being creative, and making sawdust, is so good for the soul. Please know that on behalf of the entire board, we want all of you to stay well. We look forward to meeting again sooner rather than later.

Best regards,

Diane and the Entire AWA Board
